

NCUTCD Edit Committee Report

January 7, 2004

- The Edit Committee met on 01/07/04 with Members Lewis, McKnight, Pline, Robinson and Hicks present. Connie Dudek attended as a guest.

- The Edit Committee presented three items to the full NCUTCD.

(1) Section 1A.09 Engineering Study and Engineering Judgment

Wording changes were suggested for the first sentence of the second paragraph; the first paragraph under Guidance.

“The decision to use a particular device at a particular location should be made consistent with the principles contained in this manual and, if required, on the basis of either an engineering study or the application of engineering judgment.”

This recommendation is to be forwarded to the Regulatory/Warning Signs Technical Committee.

(2) The Edit Committee will review the several Parts of the MUTCD for what the committee calls ‘subjective’ words. The Technical Committee representatives serving on the Edit Committee will do the review for their respective Parts. This task is anticipated for completion for a report at the June Juneau meeting.

(3) Copies of the AASHTO Draft Glossary will be provided to Edit Committee members for their review and comment. This, also, will be reported on in June.
