

National Committee on Uniform Traffic Control Devices

NCUTCD Council Meeting  
January 18, 2007

Proposed Bylaws Amendments

The following amendments to the NCUTCD Bylaws are proposed. Deletions are shown as ~~strikeouts~~ and additions are shown as underlined.

Section 6.3 – Member Appointments, make the following changes to the first sentence under the Group I heading:

Group I. A minimum of ~~fifty percent (50%)~~ sixty percent (60%) of the Members and ~~fifty percent (50%)~~ sixty percent (60%) of the Associate Members shall be appointed by Group I Sponsoring Organizations.

In Section 6.3 after the paragraph listing the number of Group I members, add the following sentences:

Once a 60% ratio has been attained, each time that an additional sponsor is added to the National Committee (NC), if the resulting percentage of Group I votes would be less than sixty percent (60%) of the votes on the Council, two additional Group I Members shall also be added, with one added to the AASHTO delegation and one added to the ITE delegation. However, if the resulting combined percentage of APWA and NACE votes would then be less than twenty-five percent (25%) of the Group I votes, the two additional Group I Members shall instead be added to the APWA and NACE delegations, with one added to the APWA

**delegation and one added to the NACE delegation. In either case, an Associate Member would also be added to each delegation that is receiving an additional Member.**
